Unleashed the Speed

Advance your Racing performance

GPS Lap Timer **Color**

LT-Q6000

eXtreme 10Hz GPS Racing system to log 10 times per second
Real-time measure and display racing performance accurately

- Drag Racing
- Circuit Racing
- Real-time Comparison
- G-force meter
- Trip Computer
- Racing On The Go
- Auto Start Trigger

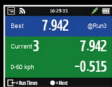

Features

- Real-time record and analyze diversified Racing tracks
- Large 2.4" Color display and compare multiple laps and splits
- eXtreme 10Hz recording excellent for highly accurate measurement
- Diversified Drag Race modes selected by speed/distance and kph/mph
- Flexible Circuit Race selected by Lap with splits or Simple Lap
- G-force plots and Start-Run auto trigger
- Smart speedometer to show real-time speed information
- 2GB Large memory to instantly retrieve and review History database
- Stand alone device without hassle setting-up
- On-Device created to User track, and QRacing Sync to Shared track

Specifications:

LT-Q6000

High Sensitivity GPS	Yes
Display	2.4" Color 240x320 px
Backlight	Yes
Operation Mode	Drag Racing Circuit Racing GPS Logger
Operation time (10Hz)	10 hrs (backlight on)
LOG rate	10Hz
Memory	2GB
AGPS instant fix	Yes
G-Sensor	Yes
Beeper	Yes
Firmware upgrade	Yes
Connector	Mini USB
Dimension	101x59x28 mm
Weight	107g (bracket excluded)
Water Resistance	IPX3
Operating Temperature	-10°C~60°C
Software	QRacing, QTravel
Accessories	USB Cable, Car Charger, mounting bracket, Car holder, Protection Case, CD, Quick Guide.
