

Never get lost on your way !

GF-Q900

QFinder™ GPS BackTrack

QFinder utilizes the GPS technology to mark your desired locations and allows you to be back to the locations later at anytime by the precise digital compass with 8-directional arrows. It's a pretty practical tool in terms of hiking, camping, kayaking, fishing, parking, and traveling.

How QFinder Navigate?

The Digital Compass with 8-directional arrow guides you to the marked location A/B/C/D

Location A is 697m straight line distance from you in your left direction.

Straight line distance from location A

Arrow always points to location A

How QFinder being used?

Hiking \ Camping

Mark A for your great sight seeing location or camping point

Kayaking

Mark D for your kayaking destination

Fishing

Mark C for your hottest spot with most fishes

Touring

Mark A for the tourism rally point.

Parking

Mark D for your parking position. Help you find the car in a parking lot.

Treasure hunting game

Mark your treasure location and pass it to kids to play treasure hunting game.
